

The Birds Research Assignment

Robins, finches, sparrows, larks...just some of the many birds that attack Nat and his family in Daphne du Maurier's "The Birds". Do you know a lot about the birds mentioned in this short story? Do you know what they eat or where their natural habitat is?

Assignment due Friday (10 points):

You will choose one of the birds mentioned in Daphne du Maurier's "The Birds" to research. You will need research their food source, and their natural habitat. Are they an endangered species? Is their natural habitat in danger of being lost because of human encroachment?

Look for reliable sources! Try The U.S. Fish & Wildlife Service as a starting point.

Remember, many reliable sources on the Internet have an address ending in .org; .edu; .gov

Grade based on:

Content 5pts

Reliable source with parenthetical documentation and work cited 3 pts
